

# Cancer Neuroscience

A Novel, Actionable Hallmark of Cancer

22-23 September 2022

## Event Announcement

Be part of a groundbreaking scientific event that will integrate neuro-science and cancer biology to spur a wave of innovation in cancer research and treatments.

*Advanced Biology* and The University of Texas MD Anderson Cancer Center present a two-day virtual symposium featuring contributions from over 30 leading international experts.

[Visit our website](#) to explore the agenda.

## Topics include:

- Neural regulation of cancer
- Glial cell regulation of cancer
- Cancer neuro-immunology
- CNS and PNS malignancies
- Neurological sequelae of cancer therapies
- Quality of life, neural health, and rehabilitation
- Advanced modeling of cancer neurobiology

The symposium is [now open for registration](#) and welcomes researchers, practitioners, and students from around the world.
