APAO ASSOCIATION OF
PHYSICIAN ASSISTANTS
IN ONCOLOGY
partners in cancer care

THE UNIVERSITY OF TEXAS
**MD Anderson
Cancer Center**
Making Cancer History[®]

Goal

Over the next decade, there is projected to be a significant shortage of both oncologists and surgeons to meet the needs of the aging US populations. To help offset the growing workforce demands, more Advanced Practice Providers (APPs, including physician assistants and nurse practitioners) are being employed in surgical oncology practice to care for patients afflicted with solid tumors. In order to enable the best possible patient outcomes, it is critical that cancer care professionals are apprised of these latest advances in treatment and management, as well as understand and implement best practice models to optimize team-based cancer care. This activity is geared specifically towards the educational needs of surgery APPs that care for cancer patients. However; the content is appropriate for those practicing in multiple oncology disciplines, and thus the target audience includes physician assistants, nurse practitioners, registered nurses, physicians in general practice, and other healthcare professionals in either private practice or academic settings.

Educational Objectives

After attending the conference participant should be able to

- Describe recent advances in the surgical management of solid tumors originating from the following organ and/or disease sites: brain, spine, oropharynx, lung, breast, stomach, colon, rectum, liver, pancreas, prostate, kidney, ovary, skin, and bones.
- Describe fundamentals of solid tumor imaging, and how to review and interpret pertinent findings from computed tomography and magnetic resonance imaging of the head, neck, and abdomen.
- Examine and illustrate the changing role of the advanced practice professionals in the delivery of oncology care for surgical patients.

Target Audience

The target audience includes Physicians, Physician Assistants, Nurse Practitioners, Clinical Nurse Specialists, RNs, CRNAs, and other healthcare professionals involved in the management of patients in surgical oncology.

Educational Methods

Didactic/Lectures – Case Presentations
– Question and Answer Session – Panel Discussion – Poster Session

Evaluation

A course evaluation link will provide participants with the opportunity to comment on the value of the program content to their practice decisions, performance improvement activities, or possible impact on patient health status. Participants will also have the opportunity to comment on any perceived commercial bias in the presentations as well as to identify future educational topics.

Accreditation/ Credit Designation

The University of Texas MD Anderson Cancer Center is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Texas MD Anderson Cancer Center designates this live activity for a maximum of 20.75 AMA

PRA Category 1 Credits™. Physicians and APPs should claim only the credit commensurate with the extent of their participation in the activity.

Ethics

Session #10 has been designated by The University of Texas MD Anderson Cancer Center for 1.25 *AMA PRA Category 1 Credits™* in medical ethics and/or professional responsibility.

Nursing

The University of Texas MD Anderson Cancer Center is accredited with distinction as a provider of Nursing Continuing Professional Development by The American Nurses Credentialing Center's Commission on Accreditation.

The University of Texas MD Anderson Cancer Center designates this internet live course will award 20.50 Nursing Continuing Professional Development (NCPD) credit which includes 4.5 Pharmacotherapeutics and 0.5 Controlled Substance Credit.

CME Certificates and Attendance Verification Certificates

Certificates awarding *AMA PRA Category 1 Credit™* or certificates documenting attendance will be emailed when an individual completes the online CME Verification process after the conference.

Call for Abstracts

Abstracts will be selected for either e-poster or mini-oral presentation at the conference. The purpose of the poster session is to provide educational overview of the latest advances in surgical management of solid tumors and the role of APPs in clinical practice. Please visit our website for more information.

To submit an abstract click on the link <https://bit.ly/38T3b7O> or scan the QR code. Deadline for submission is **January 22, 2021, 11:59 PM CST**. Authors of selected abstracts will receive a notification of acceptance via email by **February 5, 2021**. Best of Poster award will be announced at the end of the conference. For any questions or concerns please contact: **soapabstracts@mdanderson.org**.
