

**Oncology Certified Nurse (OCN) Review Program: Day 1**

**Presented by:**

**Genalyn Bar-Tal, MSN, Stella Dike, MSN, Erica Hall, MSN, Katherine Mishaw, MSN, Tiffany Tolden, MSN, Mildred Toth, MS**

**Monday April 26, 2021 8:00 AM**

**Target Audience:**

Specialties:       General Oncology

**Description:**

At the end of this presentation, the Registered Nurses who work with cancer patients will validate knowledge of oncology nursing by successfully passing the Oncology Certified Nurse (OCN) certification exam.

Day 1 will cover:

- Health Promotion, Cancer Prevention, Screening and Early Detection
- Nurse Navigation
- Scientific Basis for Practice
- Treatment Modalities
- Solid Tumors: Lung, Breast, Renal, Bladder, Prostate, Testicular, Penile, Cervical, Endometrial, Ovarian, Colorectal, Pancreatic, Esophageal, Gastric, Head and Neck
- Test Taking Strategies
- Questions and Answer Discussion

**Learning Objectives:**

- 1 Describe health promotion and scientific basis for practice.
- 2 Discuss treatment modalities for cancer, including radiation, chemotherapy, surgery, and stem cell transplant.
- 3 Identify the signs and symptoms, diagnostic workup, and treatment modalities for solid tumor cancers such as breast, lung, gynecology and genitourinary.
- 4 Describe the treatment modalities and nursing intervention for head and neck, neurological, and gastrointestinal cancers.
- 5 Identify professional practice and legal and ethical considerations while taking care of cancer patients.
- 6 Discuss the signs, diagnostic workup, and medical or surgical management of bone/soft tissue and skin cancers.
- 7 Identify nursing assessment and intervention in the management of the alterations in hematologic and immune function, musculoskeletal, nutritional, and genitourinary function.
- 8 Describe nursing interventions for alteration in respiratory, cardiovascular, and gastrointestinal function including comfort care.
- 9 Identify the nursing role in the identification and management of metabolic and structural oncologic emergencies in cancer patients.
- 10 Describe the psychosocial, palliative, survivorship and end-of-care needs of cancer patients including patient education.
- 11 Discuss the test taking strategies for OCN certification exam.
