Authors:

The 2024 Cancer Neuroscience symposia aims to provide a platform for scientists, clinicians and healthcare professionals, and trainees from basic science, translational, behavioral, clinical, and other settings to share and discuss current information related to the intersection of cancer and neuroscience. All registrants are encouraged to submit a scientific abstract, which will be published in a meeting proceedings supplement in [Advanced Biology Journal](). Accepted abstracts will be presented as a poster presentation (in person) during the meeting.

Three overall abstracts will be selected for the best abstract award, that will be awarded during the meeting. Winners selected for a preoffered 10 min talk will be notified, see abstract dates. There will also be a category for early-stage investigators (ESI: postdocs, instructors). Selected ESI's will be invited to work with a journal editor to contribute a perspective style piece on the future of the Cancer Neuroscience field.

Instructions:

- Please submit a 400-word abstract using the following format:
    - Introduction
    - Methods
    - Results
    - Conclusion
    - Significance to the cancer neuroscience field
- No figures, tables, or numbered references/bibliography are permitted. Authors who wish to cite specific research may do so parenthetically such as, (Palermo, 2019).

- Each abstract submitted must have a unique corresponding / presenting author
- Unpublished or submitted work, not in press, is preferred to receive additional publication offerings

Abstract Dates and Deadlines:

1) Abstract Submission Opens: May 1, 2023 available on registration
2) Abstract Submission Closes: January 8, 2024
3) Speakers Notified: February 5, 2024
4) Winners Announced During the Symposium: February 5, 2024

Please submit your abstract to Cicely Everidge at CEEveridge@mdanderson.org. All communications will be sent to the submitting author.
